The number of transactions concerns the total number of transactions with logistic handling on the same auction day; these are logistical transactions via clock and clock pre-sales (KVV). If you buy in via KVV, these / counts count these transactions for the day that this logistics is processed. The minimum levy is calculated per location (Aalsmeer / Naaldwijk / Rijsburg) and per process (flower process and plant process for Aalsmeer / Naaldwijk and Rijsburg has 1 process).
