What is Insights?

Insights provides real-time insight into price and market developments. Discover trends and developments in your own sales, compare yourself to others and compile reports with ease. Trade with more insight!

Insight into your own sales

Compact and real-time insight into your sales and transactions, your average price and your principal buyers.

Compare yourself to others

Detailed insight into your own yield, items and price. Compare yourself to other growers.

Compile reports with ease

Insight into relevant trends in a report with personalised data sets across longer periods of time.

.....

“Insights gives us real-time access to clock prices, which in turn helps us set our own market prices. In just a few clicks, I can quickly make analyses and compare our position to that of other growers.”

Wim Ammerlaan, AQ Roses
