

Internet via MPN in the Box or office within Royal FloraHolland

Do you wish to have reliable internet in your box or office at Royal FloraHolland? Then having internet via the Market Place Network (MPN) is your best option..

Market Place Network (MPN)

For any business, the reliability of data communication is essential. This certainly applies in the market of floricultural products as well. For its buyers, Royal FloraHolland has developed a glass fibre network, called the Market Place Network (MPN). Royal FloraHolland services such as Remote Buying (Kopen op Afstand, KOA) or Electronic Clock Transactions (EKT) work perfectly via MPN-KOA and MPN-EKT. High-grade internet can be supplied via MPN

Reliable internet

A malfunctioning website or online shop, or problems with your email, is the last thing you need as a business. That's why it is essential to select a secure corporate internet service, but beware! Not every type of internet (such as ADSL) works equally well on the auction grounds. If you want to be assured of reliable internet, then choose for internet via MPN.

Glass fibre offers many advantages: swift, stable, reliable, and future-ready.

Who provides internet services?

Royal FloraHolland does not provide internet services. Internet via MPN is supplied by the following providers:

Cbizz	Rob Keijzer (R.Keijzer@cbizz.nl)	+31 (0)6 10 07 97 37
Commplaza	René Rouw (rene@commplaza.nl)	+31 (0)6 42 61 85 80
Eurofiber	Marcel Verhoeve (marcel.verhoeve@eurofiber.com)	+31 (0)6 52 85 02 40

What does it cost?

Subscription costs depend on arrangements with the provider. The provider also determines the connection fee. (Royal FloraHolland settles the connection fees with the provider.)

What are the MPN connection costs?

A glass fibre connection (including network equipment) costs € 1355.

If a glass fibre connection is present, then the costs for the network equipment come to € 596. If both are present, then the connection fee is € 161.

How long does installation take?

The standard maximum term to install a glass fibre connection is 30 office days. If a cable is already present, then the connection takes 10 office days.

Glass fibre connection too expensive? Then opt for Small Business internet.

Specifically for small buyers, Royal FloraHolland offers a Small Business internet service. This service is limited to 4 work stations at most, with a capacity of 5 Mb. Ask the providers about this service.
